

happy
NEW YEAR

As 2020 at last nears its end, we at Animal Services want to share with all of you our profound gratitude for what you did to make this year more bearable, and even a source of joy.

- To everyone who fostered during lock downs, so that our animals could receive love and care and not languish in empty shelters: **THANK YOU!**
- To everyone who adopted an animal, offering it a loving lifetime home: **THANK YOU!**
- To everyone who vaccinated, licensed, and spayed or neutered your pet to make sure it is safe and healthy: **THANK YOU!**
- To everyone who volunteered, whether at one of our shelters, out in the community, or from your homes: **THANK YOU!**
- And to everyone who donated money or resources to help us fund our essential work saving and caring for animals and supporting their guardians: **THANK YOU!**

Your commitment to loving and responsible animal care made our jobs easier, and gave us joy at otherwise difficult moments. **THANK YOU!**

2021 will surely bring us challenges, but also opportunity. The pandemic has given us the chance to re-envision sheltering, so that we give our county's animals the best possible experience on their way to their next home. We are excited to embrace collaborative programs with our rescue partners, whose work is essential to the well-being of the many animals we may never deal with here at Animal Services. And we are confident that whatever happens, our passionately pro-animal community will be there with us, to meet the needs of the beings in our care, and support the people who love them.

With gratitude,
The Staff at Santa Barbara County Animal Services
