

# Lights! Camera! Action! Summer Blockbuster

Action-Packed Activity This Past Weekend at SBCAS

On Friday and Saturday, August 6-7, we held our **#adoptachampion** event with adoption fees waived for all dogs. Our SBCAS staff were rockin' and rollin' to find our dogs new forever homes!

The two-day event proved to be successful adoption days with twelve SBCAS champions finding new loving homes. This gave our shelter some breathing room by providing a bit more empty kennel space and more time to care for the remaining animals.

SBCAS is grateful to our community members for supporting our efforts in finding homes for our furry friends!

Hazel meeting her new family member. She was all smiles!

Stuart getting ready to head out of the shelter with his new family!

## Emergency Lifesaving Surgery for Mama Cat & Kittens in Need

In addition to the flurry of adoptions, a pregnant stray mama cat who was experiencing stalled labor was brought to our Santa Maria shelter on Saturday. Our animal services veterinary team acted quickly and had the cat transported to Animal Care Hospital in Lompoc. Dr. Scheer came in on her day off along with her amazing team and performed an emergency surgery. What an amazing effort between partners to save this mama cat and her kittens!

## SBCAS & CAPA Save Injured Dog in Lompoc

**DONATE To Help Lois Here!**

Even with so much action happening at our shelters and veterinary clinic, our Animal Control Officers were busy in the field. Animal Control Officer Hart responded to a call for an injured stray dog in the City of Lompoc. This Basset Hound mix was very sweet and friendly, but unfortunately had no identification or microchip. Officer Hart noticed right away that the dog's right leg was swollen and non-weight bearing. This lucky dog, now named Lois, was transported to PETS ER for treatment, where it was determined that she had a fractured front leg.

Our Lompoc nonprofit partner, CAPA, has offered to sponsor her medical bills so Lois can receive proper care and treatment. Please consider donating to CAPA, as it truly takes not only a village, but strong partnerships to save the lives of dogs like Lois!
